

beautiful life PLANNER

the beauty educator

hello & welcome!

My minimalist mind loves the idea of a paperless lifestyle, but my reality is more out of sight out of mind. I've never been so discombobulated as I was when I went paperless.

Can you imagine, going from 1000s of post-it notes to online-only? It was a stunning thing to have a clear desk, but I missed deadlines, skipped workouts, and even no-showed appointments!

So paper it had to be!

I tried countless iterations of diaries and bullet journals to finally settle on these pages. I have been using this version of my pages to keep my business on track and stay accountable for two years.

I do hope you love the pages. I print them out in 90-day packs and have them spiral bound at the office supply store (I like A5 size). Splurge on a great pen and keep your book with you everywhere you go.

xoxo,

Katt Philipps
